
OZONE and CANCER (testimonials)

My name is Stephen and I'M AN OZONE TECH in Dallas. I have been using the steam system from Saul treating a variety of illness with tremendous results. One in particular I would like to share with you. My girl friend was diagnosed with stage 3 cervical cancer about 15 months ago which was right when we had started dating. I persuaded her to do ozone therapy instead of mainstream treatment. I administered 40 treatments over an 8 week period consisting of 3x's a week sauna and 2x's a week vaginal insufflation. What were our results you ask? On 07/17/99 at 12:39 p.m. we celebrated the birth of our baby boy who checked in at 8.6lbs&21 inches. The healing power of ozone.....

O3 TO YOU ALL,
Stephen

Dick,
I have treated 3 cases of advanced lung cancer in the past 5 months. All cases have been cleared up to date. We did a combination of cupping over the tumors in the sauna and cupping over the tumors lying on a table. The Hyperthermic sessions were for 35 minutes and the cupping sessions were 45 minutes. I administered 2 sessions a day 5 days a week for 4 weeks, in 2 cases all tumors have disappeared and the lungs are on the mend. We are now in a maintenance phase of 3 sessions a week for the next 4 weeks. The 3rd case was the most severe, as the lady had 7 tumors in her lungs. One was reported as grapefruit size and the other as baseball size, 5 of the tumors have completely disappeared while the 2 remaining are about quarter size. Each client drank a liter of OZONATED water after each session. I also had them on Aloe Vera (8oz) a day and EZZEAC Tea (6 oz) a day. The main thing is to get this person started on ozone therapy now.

Best of Health,
Stephen

Hi,
I just want to tell the story of how my wife was cured from cancer twice.

My wife had 16 tumors throughout her body, in her intestines, liver, and breast. All the doctors said there was nothing they could do and that she had 6-12 months. That was 3 years ago. My wife found a new experimental chemo treatment that "had a 80% cure rate". She did the chemo for 9 months and it was killing her. The doctor said her system was starting to shut down. I had been looking at alternative treatments from various sources & doing research on my own & found ozone. We didn't want to try it because of what the EPA & everyone else said about it, but since her system was starting to shut down, what did we have to lose? We drank ozonated water & breathed it while we slept every night, also did juicing and she continued with the chemo. Within 3 months she was cancer free.

Now if that isn't enough, a year and a half later when she went in for her check up to see if the cancer was still gone, they said she had two more tumors. One on the bile duct & one in her intestines again. The doctor told her they couldn't give her any more chemo & there was NOTHING they could do this time. We had slacked off on the ozone for several months so we decided to flood our bodies again. Guess what? Within 6 months the tumors were gone again. This time all we did was the ozonated water, breathing ozone & juicing. The doctor couldn't believe it & sent the tests out to 4 other doctors & they all said there was no cancer. He said they should hire me. By the way my wife is the only one out of 54 who is still alive from the group that was given that chemo. Like they say I think they play with the numbers a little. ;-)

Also I have cured athletes foot, a rash or something like that on my head, and removed age spots with ozone. (I don't go to doctors) I believe I have at least cured an enlarged prostate, (verified by doctors before I quit going to them) but probably prostate cancer with ozone & apricot seeds. (Thanks for the apricot seeds tip Ralph Moss!) My dad died from prostate cancer & I had the same symptoms though.

I just want everyone possible to know what ozone can do. It really works! I belong to Dr. Pressman's ozone group at the Yahoo site. You can see what ozone can cure at that group. Dr. Pressman has written two books on ozone & if you would like a copy of them, I'll email them to you.

Take Care, NEVER fear cancer, and NEVER give up!
Gaylen

Dear Edith,

I know a fellow who drank 2 gallons per day for weeks on end. Only result was elimination of his bladder cancer...

Generally we advise 6 - 8 glasses per day. The stomach has to be empty, so that doesn't leave a whole lot of time...usually a glass or two about half an hour before a meal works out....

Best of Health!
Dr. Saul Pressman

One comment: in Germany, ozone therapies (though not all kinds of them) are still allowed, and there are some 10,000 board-certified doctors and naturopaths administering them.
