

The American Society of Trace Evidence Examiners is pleased to announce that it is co-sponsoring two lectures by Professor Brian J. Ford on May 15th and May 16th.

Professor Ford is a leading historian in the field of microscopy and a brilliant biologist. He is a truly engaging speaker who combines solid science with a real sense of wonder at the world around us.

**May 15th, 2013 at 7:30 PM, Merritt College, Oakland CA
in the Student Lounge, Building R, room 110.**

THE FIRST MICROSCOPES – WHAT COULD THEY TRULY REVEAL?

and

**May 16th, 2013 at noon, in conjunction with the CAC study
group meeting at the DOJ lab in Richmond, CA**

SOLVING THE MYSTERY OF SPONTANEOUS HUMAN COMBUSTION

Registration is available until 5/12 for this lecture. CAC membership is not required for attendance. Please follow the following link for more information:

<http://www.cacnews.org/events/studygroup/viewmeeting.php?id=61>

These events are being sponsored by the following groups:

**American Society of Trace Evidence Examiners
California Association of Criminalists
Northern California Society For Microscopy
